

SQ Backer

What is the SQ Backer?

SQ Backer is the tiling backer board of choice wherever superior performance is required.

Durability

- SQ Backer offers protection against moisture damage, unlike traditional materials, such as plasterboard and plywood that can disintegrate or break when they become exposed to water.
- SQ Backer stays strong and firm no matter how damp or wet it gets.
- SQ Backer is non-combustible and Class A1 Fire Rated.
- SQ Backer With its unique magnesium formulation, has no loose fillers or aggregates, it is a strong and uniform tile backer board.

Formulation

SQ Backer employs a low energy manufacturing process, as much as **50% less** than competing building products and actually absorbs carbon dioxide from the atmosphere during its exothermic curing process.

SQ Backer is inorganic and has no toxic inputs, it contains no formaldehyde, fly ash or crystalline silica – ingredients/Additives which can be found in plywood, OSB, fibrecement and gypsum based building materials.

Benefits

- SQ Backer can be used in commercial and residential applications
- SQ Backer is available in 6mm and 12 mm thicknesses, in dimensions of 1200mm x 800mm
- SQ Backer scores and snaps cleanly and easily with no need for circular saws, resulting in a dust free, clean and efficient environment
- SQ Backer is light and strong and protects from fire and water, and is naturally resistant to mould and wood boring insects
- SQ Backer is impact resistant, can be screwed or nailed and finishes easily

SQ Backer

High quality backer board

Easy to use

The board of preference for wet areas
Use on walls or floors with all types
of ceramic or stone tiles thanks to
excellent tile adhesion properties

Durability

Our product comes with a

10 Year Warranty

Easy to Handle

6mm:
1200 x 800 x 6 mm

12mm:
1200 x 800 x 12 mm

Lightweight

6mm:
6.2 kg per board

12mm:
12.4 kg per board

Manufactured to a High Standard

- Primary ingredient Magnesium Oxide.
- Strong, flexible and with high impact resistance
- No loose aggregate or filler

Superior Performance

- Excellent tile adhesion
- No rot, mould or mildew
- Water resistant
- High impact resistance
- Fire resistant
- Higher density

Environmentally Friendly

- Less dust when cut
- Scores and snaps to any size
- Fully recyclable
- Efficient to use with up to 50% material and labour savings
